

Civil Engineering Technician – Land Development

Location: Hudson, Wisconsin

Company: Auth Consulting & Associates (AC/a)

Service Area: Civil Engineering / Land Development

About AC/a

Auth Consulting & Associates (AC/a) is an engineering consulting firm with offices in Menomonie and Hudson, Wisconsin. Since 1995, we have provided comprehensive planning, civil engineering, building design, and surveying services throughout the United States, with primary operations in Wisconsin and Minnesota.

We are committed to delivering practical, high-quality engineering solutions for a wide range of land development and municipal infrastructure projects.

Employees at AC/a benefit from broad project exposure, direct interaction with licensed professionals, and the opportunity to take on meaningful responsibility early in their careers.

Position Overview

We are seeking a Civil Engineering Technician to join our Hudson office. This position focuses on CAD drafting, plan production, and technical support for civil engineering and land development projects.

This role is well-suited for someone who enjoys technical drafting work, takes pride in detailed design production, and is interested in long-term growth within the civil engineering profession.

Responsibilities

- Prepare construction drawings and plan sets using AutoCAD Civil 3D
- Support engineers with drafting and design tasks
- Assist with grading, drainage, and site layout plans
- Support erosion control and stormwater management plans
- Assist with municipal sewer and water system drafting
- Maintain base maps, exhibits, and project drawings

- Review plans for accuracy and consistency
 - Perform limited field observations and data collection
 - Coordinate with engineers and survey staff
-

Qualifications

Required

- Associate's degree in civil engineering technology or equivalent experience
- Proficiency in AutoCAD Civil 3D
- Ability to read and interpret construction plans
- Strong attention to detail and organizational skills
- Proficiency in Microsoft Office (Word, Excel, Outlook)
- Ability to manage multiple tasks and deadlines

Preferred

- CAD drafting or civil engineering support experience
 - Exposure to land development or municipal projects
 - Interest in long-term advancement within civil engineering
-

Work Environment & Growth Opportunity

Technicians at AC/a play a key role in project delivery by supporting engineers with drafting and technical production work. This position provides exposure to real-world civil engineering projects from design through construction.

AC/a offers a supportive, team-oriented environment with opportunities to develop technical skills and grow within the firm over the long term.

Compensation & Benefits

- Health and disability insurance
- Retirement plan and profit sharing
- Paid time off and holidays
- Training and professional development opportunities
- Career advancement potential within the firm

Salary: Negotiable, depending on experience and qualifications.
